

This well known landmark is Northern Maine headquarters for discriminating shoppers seeking fine furniture and home furnishings. Five complete floors devoted exclusively to the products of the finest American furniture craftsmen.

... the finest furniture obtainable for every type and size of home for almost half a century.

Since it was founded in 1908 by the late Frank Dunn, it has been the constant aim of this store to devote its major attention constantly to the modernization and improvement of the homes of its customers.

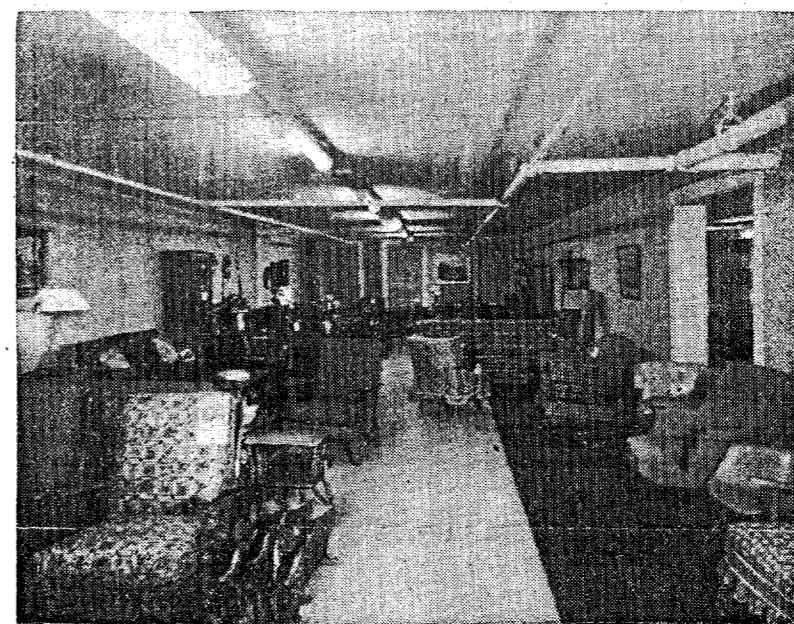

This early tradition has been notably advanced by his successor, and son, Donald Dunn, and it finds ample reflection in the developments which have tripled the store's capacity, greatly expanded its services and created one of Maine's outstanding furniture establishments.

We are especially proud to be the only Maine store belonging to Century Furniture Associates, an affiliation of fifty locally-owned, independent furniture stores with a combined buying power of millions of dollars making possible not only the best possible values for our customers but also the finest available products.

Our fourth floor displays upholstered living room furniture exclusively, including sets and single pieces featuring famous brand names.

... associates, an affiliation of fifty locally-owned, independent furniture stores with a combined buying power of millions of dollars making possible not only the best possible values for our customers but also the finest available products.

We are proud, too, to be one of the few furniture stores in Maine providing a complete interior decorating service with skilled workmen in our own shops to do all drapery, slip cover and floor covering work.

Our recently completed redecoration and rearrangement of all five floors, according to the design of Richard Kostka, one of the nation's leading store designers, has vastly improved our display facilities and makes selection far easier for our customers.
